Personal Financing-i

Date : _____

1 What is this product about?

This is an unsecured Islamic personal financing offered to individuals. The profit is calculated based on variable rate and monthly rest basis.

2 What is the Shariah concept applicable?

This Personal Financing-i product is based on the concept of **Tawarruq**, whereby:

- The Customer, via the application form, will execute the Purchase Request and Promise to Buy (Wa'd) for the Commodity from the Bank at the Selling Price based on **Murabahah** consisting the cost price of the Commodity and disclosed profit margin. At the same time, the Customer also appoints the Bank as an agent (**Wakalah**) to sell the Commodity to third party commodity trader.
- Upon approval of the application, the Bank will offer the Facility via short message system ("SMS"). Upon receiving the Customer's reply to accept the Facility via SMS, the Bank will purchase the Commodity (tele-communication airtime) at cost price which is equivalent to the Purchase Price/Financing Amount.
- Upon transfer of ownership of the Commodity to the Bank, the Bank will then sell the Commodity to the Customer at the Selling Price based on Murabahah which will be payable by the Customer to the Bank by way of instalment or deferred payment basis. The Customer will buy the same Commodity at the Selling Price. The Murabahah sale transaction is concluded via SMS.
- Upon completion of item ii and iii above, the Bank, acting as the Customer's agent will sell the Commodity to the third party commodity trader at the cost price of the Commodity which is equivalent to the Purchase Price. The proceeds from the sale of the Commodity will be credited into the Customer's account during disbursement of the Facility.

3 What is the Standardised Base Rate (SBR)?

The SBR we offer on this product is based on the benchmark rate specified by Bank Negara Malaysia. The benchmark rate is currently set as the Overnight Policy Rate (OPR), which reflects the monetary policy stance as decided by the Monetary Policy Committee of Bank Negara Malaysia. For more information on SBR implementation, please refer to BNM's Consumer Guide and Frequently Asked Questions (FAQs) at

https://www.mbsbbank.com/SBR_BR_BFR

4 What are the possible scenarios to trigger a change in the BR?

The SBR can rise or fall due to changes in the benchmark rate, i.e. changes in the Overnight Policy Rate (OPR).

5 Historical benchmark SBR in the last 3 years

- The Ibra' is calculated as follows:
